

## Adrian Pederick MP

Member for Hammond

23 January 2015

### Local companies receive grants

Australian Saltworks facilities located at Mulgundawa and Thomas Foods International are recipients of grants to expand their facilities.

“Australian Saltworks are planning to upgrade it’s facilities with the assistance of the grant, which will in turn create new jobs and increase their capacity”, said Mr Pederick.

“Thomas Foods International in Murray Bridge have received a grant towards a new state of the art beef boning facility which will help lift the daily output and create economic benefits”.

“Improvements to both facilities and increased production will allow both companies to expand and create new jobs for the region”, said Adrian.

The benefits to both facilities will flow on through the Hammond Electorate and surrounding area’s creating positive employment and expanding business opportunities.

“As the Member for Hammond, I look forward to being part of the growth of both companies and their new developments at their facilities”, said Mr Pederick
