Dodgshun Medlin gets Loxton base

MEMBER of Parliament Adrian Pederick officially opened the new Dodgshun Medlin office at Loxton recently. Though the Dodgshun Medlin agricultural team had been providing South Australian Mallee farmers independent agronomy services for the past five years, there was a growing need for a permanent office and team at Loxton. Agricultural management team head Danny Conlan said this move was significant given governments reducing R&D and extension services.

Stock Journal's **PAULA THOMPSON** was there.
