

# Tennis association makes “shady” deal

MURRAY Bridge Lawn Tennis Association is the happy recipient of a State Government grant to improve facilities at its Sturt Reserve courts.

The association received a much-needed \$18,000 from the Office of Recreation and Sport to build a shelter to protect participants from weather, including providing shade on hot summer days.

Member for Hammond Adrian Pederick, who supported and helped with the lengthy application process, said he was thrilled for the association.

“The Murray Bridge Lawn Tennis Association is a great club with over 265 members of all ages and are well deserved recipients of this grant,” he said.

“The association has a thriving junior competition and promotes an active life for children in the Murraylands and I was pleased to be involved.

“I urge any clubs in the Hammond electorate who are looking for support to apply and feel free to contact the Hammond electorate office for assistance.”
