

Concern for Lake Albert Study Outcome

Liberal Member for Hammond and Chair of the State Liberal Regional Affairs Committee, Adrian Pederick, has raised a number of concerns about the outcomes from the Weatherill Labor Government's Lake Albert Scoping Study released this week.

The year-long study, costing \$740,000, has finally been released with one main recommendation – the manipulation of lake

levels. Another option is the concept of 'temporary reset pumping'.

The practice, known as lake-level cycling, involves
