Adrian Pederick MP

Shadow Minister for Agriculture, Food and Fisheries
Shadow Minister for Forests

T&R success a proud moment

Induction into the SA Food Industry Hall of Fame is a major milestone in the development of an important local industry says local MP Adrian Pederick.

Mr Pederick, who is also Shadow Minister for Agriculture Food & Fisheries, said the growth of T&R Pastoral (Murray Bridge) was remarkable and highlighted the company's vision and planning.

"The Thomas family are to be congratulated on this success,' Mr Pederick said.

"There have been difficult times and many challenges in recent years so for this Murray Bridge based business to push ahead with bold growth is a reflection of the courage and leadership of the management team.

"The benefits to the region are many with employment opportunities and their flow-on effects providing a major economic boost.

"The Food Awards are an important event in the state's food production calendar where the exceptional achievements of Australians going about their business are publicly acknowledged.

"I congratulate all award winners on being recognised as the best in their field and also the finalists whose achievements have been brought to the attention of the broader industry and important market players.

"I would also like to acknowledge all award sponsors whose support is so important in raising the profile of these awards."
